## Why Accessible Documents Matters For Technology Companies ?

At 24/7 Accessible Documents we work with you to understand and create a plan to:

- Meet your Compliance as per americans with Disabilities Section 508
- Conform to accessibility standards & guidelines like PDF/UA and web content Accessibility Guideline 2.0 and 2.1
- Data Security
- Upfront Pricing
- Take the hassle out of doing it in-house

### WCAG Compliance

WCAG compliance services clients from around the globe and operates offices in Ottawa, Canada and Washington D.C, USA, Our clients include all levels of public and private organization including: fortune 500, Government, Education, Healthcare, and legal.

### 508 Compliance

Documents prepared for healthcare clients were non-compliant with a key federal regulation: Section 508 of the Rehabilitation Act, which mandates that all electronic to users with visual, hearing, speech, and mobility disabilities.

### PDF remediation

Our skilled team of Remediation ensures your PDF documents meet today's leading accessibility standards, such as ADA, Section 508, WCAG 2.0AA, HHS and PDF/UA. Our process ensures all documents are accurately tagged for the end user.

## ADA Compliance

ADA compliance is short for the Americans with Disabilities Act Standards for Accessible Design. What that means is that all electronic information and technology—i.e, your website—must be accessible to those with disabilities. ADA compliance is often confused with 508 compliance.

## Website Accessibility Auditing

Our website auditing and assessment services provide you with a complete and comprehensive report accessibility issues. This service also includes a consultation session with one of our ADA/WCAG 2.0 review the report with you.

## WCAG 2.0 Conformance Claim

While they are optional, when a conformance claim is made, WCAG 2.0 specifies requirements for such conformance claims, so we thought we,do (try to) do the right thing.

## e-Book Conversion

Book conversion services involves the conversion of printed books into e-books i.e. conversion of data from physical pages, scanned page or any other format into electronic files. Tons of documents and books which occupy lots of space can be stored and distributed easily, methodically, concurrently and effectively.
